

**MATERIAL SAFETY DATA SHEET**  
**TRANSGLUTAMINASE IgA Elisa kit**

**1. Product identification**

**Product Name :** BlueWell TRANSGLUTAMINASE IgA  
**Product code :** TTA02-96  
**Intended Use :** Detection of IgA anti-tissue Transglutaminase in human serum  
**Company name :** D-TEK s.a  
 Rue Brisselot 11  
 B-7000 Mons Belgium  
 Tel. : (32) – (0)65 -841888

**2. Composition, information on ingredients**

• **Classification :** Mixture

**Abbreviations**

- MIT : MethylIsoThiazolone (preservative) = mixture of 5-Chloro-2-methyl-4-isothiazolin-3-one and 2-Methyl-4-isothiazolin-3-one
- BSA : Bovine Serum Albumin
- TBS : Tris Buffer Saline
- TMB : TetraMethylBenzidine

Kit Contents	Composition
- Sample Buffer	TBS, Tween, BSA, MIT (15 ppm)
- Wash Buffer	TBS, Tween, MIT (15 ppm)
- Conjugate	Rabbit anti-human IgA /Peroxidase., MIT (15 ppm)
- Substrate	TMB, MIT (15 ppm)
- Stop Solution	Sulfuric Acid 2.5 %
- Negative Control	Diluted Human Serum, MIT (15 ppm)
- Positive Control	Diluted Human Serum, MIT (15 ppm)
- Standards (n=6)	Diluted Human Serum, MIT (15 ppm)
- Microwell Strips	Plastic-coated tissue Transglutaminase ( Human, recombinant)

• **Hazardous substances.**

Name	CAS / EINECS	Concentration in mixture	R / S phrases (at concentration used)	Symbol(s) (at concentration used)
Sulfuric acid	7664-93-9 / 231-639-5	< 5 %	- (non hazardous)	- (non hazardous)
5-Chloro-2-methyl-4-isothiazolin-3-one	26172-55-4	< 20 ppm (total)	-	-
2-Methyl-4-isothiazolin-3-one	2682-20-4			

Where an ingredient in the mixture is not listed as hazardous substance, this means that the substance has not been classified by the European Communities legislation on dangerous substances and/or no particular hazard information has been pointed out by the manufacturer of the substance. This does not mean that it has no hazardous properties : please refer to further recommendations and precautions listed in this document for maximum safety when using this product.

• **Other information**

- Human material (serum) used in the preparation of reagents in this kit were tested and found negative for HIV-1, HIV-2 and Hepatitis C antibodies as well as for Hepatitis B antigens ; however, handle kit controls (as well as patients samples) as potentially hazardous material capable of transmitting viral diseases.
- Bovine serum albumin (BSA) used in the preparation of reagents in this kit was derived from bovine blood collected at a USDA licensed establishment. The cattle received ante- and post-mortem health inspection at the abattoir by a U.S. Veterinary Services Inspector and they were apparently free from infectious and contagious diseases. All donor animals were sourced from the United States, a country in which Bovine Spongiform Encephalopathy is not known to exist.

**3. Health hazard data / Risk identification**

- Liquid reagents contained in the kit may be irritating to eyes and skin

Main exposure risks and symptoms

**Contact with eyes :** Irritation. Tears

**Contact with skin :** Irritation

**Ingestion :** Although not considered particularly toxic or dangerous upon ingestion in conditions of normal use, avoid ingestion and contact with food

**4. Emergency and first aid procedures**

**Contact with eyes :** Immediately flush eyes thoroughly with water.  
**Contact with skin :** Immediately wash skin with soap and large volumes of water.  
**Ingestion :** If swallowed, wash out mouth with water provided the person is conscious ; seek medical advice (showing this document when possible). ; never give anything by mouth to an unconscious person ; never try to make an unconscious person vomit.

**5. Fire hazard data**

**Flammability :** Liquid reagents contained in the kit are not combustible.  
 Combustion of foam inserts inside the kit may produce intense heat.

**Extinguishing Media :** Water, carbon dioxide, dry chemical powder or polymer foam.  
 Use extinguishing media appropriate to surrounding fire conditions.

**Special Fire Fighting Procedures :**

For fires involving this material, do not enter any enclosed or confined fire space without proper protective equipment. This may include self-contained breathing apparatus to protect against the hazardous effects of the normal products of combustion or oxygen deficiency..

**6. Accidental release measures**

**Precautionary measures :** Wear appropriate protective clothing (refer to & 8)

**Environmental precautions :** Avoid flushing away in drainpipes.

**Released or spilled material :** Sweep up and collect in appropriate container for waste disposal (refer to & 13) ; clean the floor and all other contaminated objects with water.

**7. Handling and storage**

**Handling :** Wear appropriate protective clothing (refer to & 8) ; eliminate rapidly from eyes, skin and clothes ; wash hands and any other exposed zone with water and mild soap before eating, drinking, smoking and leaving workplace.

**Storage :** Store in a cool dry place

**Additional information :** refer to & 10

**8. Exposure controls and personal protection**

**Hands protection :** Laboratory gloves

**Skin protection :** Laboratory coat

**Eyes protection :** Safety goggles

**Ingestion :** Do not eat, drink or smoke during use

**9. Physical and chemical properties**

**Form :** Liquid reagents

**Color :** yellow (Diluent), blue (Wash), red or green (Conjugate), or uncoloured (Substrate and Stop)

**Smell :** negligible

**10. Stability and reactivity data**

**Dangerous reactions :** Particular dangerous reactions not known

**Dangerous properties :** Particular dangerous properties not known

**Hazardous combustion or decomposition products :**

Nature of decomposition products from liquid reagents not known.

Combustion of foam inserts inside the kit does not liberate toxic gas (only carbon dioxide and water vapour).

**11. Toxicological information**

Data not yet available

**12. Ecological information**

Data not yet available

**13. Disposal considerations**

Contact a licensed professional waste disposal service to dispose of this material. Observe all federal, state and local environmental regulations. Emptied bottles and vials may retain product residues : handle as if they were full.

**14. Transport information**

Non classified

**15. Regulatory information**

From the European Communities legislation on dangerous substances up to and including EC Council Directive 96/54/EC, this product is not hazardous and does not contain hazardous ingredients at concentrations used.

**Other information**

Contents and format of this Safety Data Sheet comply with the EC Council Directive 93/112/EC.

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. D-TEK s.a. shall not be held liable for any damage resulting from handling or from contact with the above product. Last Revised : March 2004
